Energy Exchange 2020 – EMPOWERING SOLUTIONS

This year's event takes place in **Atlanta** from **August 11-13, 2020** and also includes *onsite demonstrations of cutting edge technologies*, *FEDS Spotlight recognition* of the most innovative and successful projects, and *opportunities to drive innovation* with the help of DOE and FEMP subject matter experts.

It's all about empowering solutions, mitigating outages, reducing cost and waste, and supporting the missions of all our federal agencies.

Energy Exchange 2020 – EMPOWERING SOLUTIONS

You Asked we Acted!

- ✓ Agency leadership engagement presents opportunities to outline priorities to staff and stakeholders through agency-specific meetings and policy update sessions, including White House priorities and leadership roundtables.
- ✓ Pathways for engaging with the federal government
 - How to do business with the Federal government
 - Providing federal agencies with a platform to provide updates
 - Information for how federal agencies can utilize national labs
 - Details on how the private and public sectors can pursue technology validation and demonstration
- ✓ Resilience Training
 - Understanding the Efficiency-Resiliency nexus
- ✓ State of the Art Technology Demonstration/Validation
- ✓ Collaboration between federal agencies

Draft Technical Training Focus

Engaging with the Federal Government

Integrating Resilience at Federal Agencies

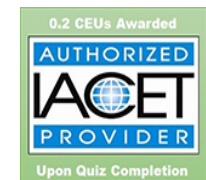

Optimizing Federal Facilities and Portfolios Design and Operations

Ensuring Cybersecurity within Federal Facility Management

Deploying Efficient Technologies in Federal Projects

Developing Financing for Federal Projects

The training is aligned with the Federal Buildings Personnel Training Act, the National Defense Authorization Act and provides the opportunity for **accredited continuous learning credits**. Training sessions will focus on providing energy and water professionals with the resources and tools necessary to meet the challenges associated with becoming efficient, resilient and secure in support of continuous mission operations, regardless of operating conditions.
