## Technology Platform Overview for ISWG Meeting November 10, 2016

Presented By: Michael Bloom & Paul Shahriari

## What can I do here? >

You're here because you care about efficient, healthy buildings and environmentally-responsible purchasing. Check out summaries of each section of the site to start exploring.

## Introduction to SFTool

Watch the video (2min)

## Where do I start? >

To access the information you need quickly, view user guides tailored to professional roles – taking you straight to the topics that interest you the most.

### Learn About Sustainability

Learn about sustainability topics, such as indoor environmental quality (IEQ) and plug loads

### Buy Green

Discover which products and services meet different environmental programs, such as BioPreferred or Energy Star

### Practice Going Green

Try your hand at sustainable building management with Green the Building

### Plan a Project

Review sustainable strategies for both new construction and renovation projects

### Explore a Building

Walk through a sustainable building to learn about strategies and products for each workspace and building system

### Demonstrate Understanding

Use FEDSAT to take the first step on a path towards full FBPTA compliance

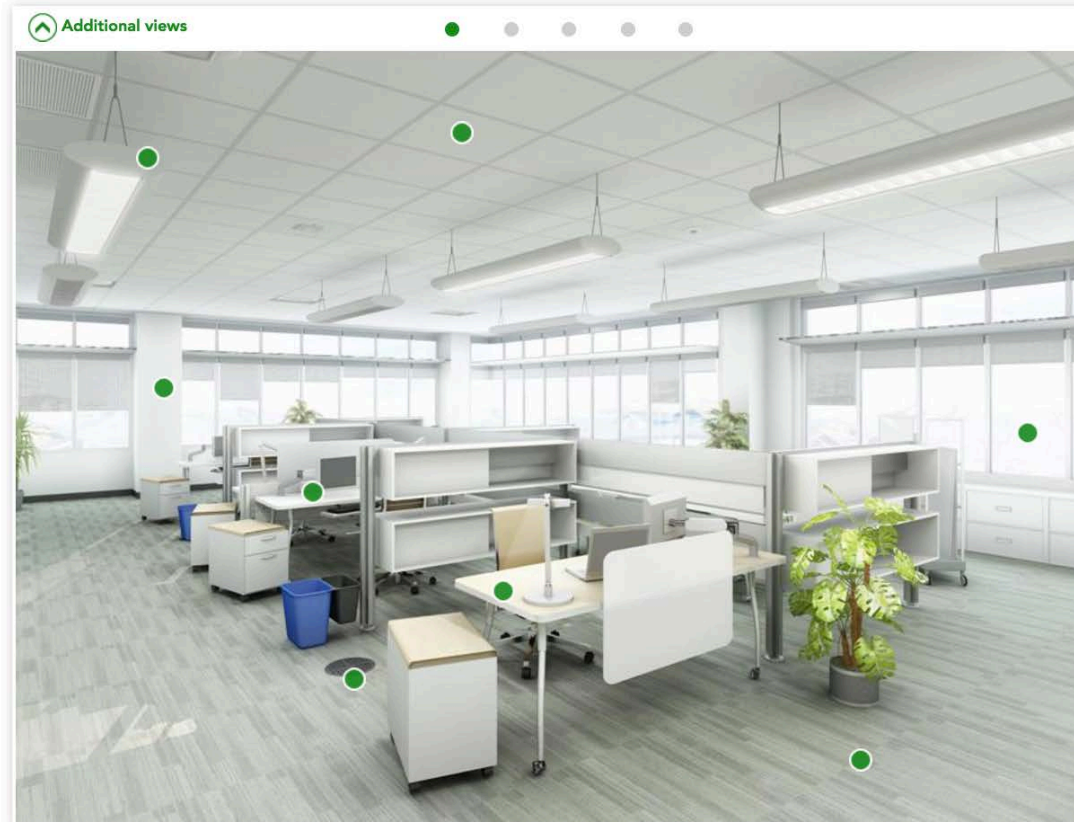

# SFTool.gov - Explore

## Open Office Area

An open office area supports work productivity for groups of employees. Design this space to be flexible, allowing for quick transition from collaborative to individual setup. Optimize daylight and views, and avoid blocking views by using low cubicle dividers or dividers made of transparent material. Utilize [occupancy sensors](#) and [zones](#) for maximum efficiency of HVAC and lighting systems. Design HVAC systems to have multiple zones to increase thermal comfort, and consider using [under floor](#) air to provide occupant control of diffusers. Allow for task lights for all abilities and tasks. Support the type of work with [active ergonomics](#). Pay careful attention to acoustics by selecting materials that absorb sound or installing a [white noise](#) system to limit noise levels from one work station to the next. [View Planning Strategies](#)

Click on a hotspot to learn sustainable strategies and compare materials for that system

## Interested in Open Office Area-related products?

[View related green products and services on the Green Procurement Compilation](#)

# Automated Impact Calculations

- Automates the ROI Calculations associated with Energy and Water Savings.
- These quick Watts and Water savings can be run in a minute and provide a rough order magnitude (ROM) impact analysis to help determine Total Cost of Ownership (TCO)

# Streamlined Documentation & Reporting

- Accelerates existing workflows
- Creates procurement and project specification compliance documentation
- Allows users to save all their procurement documentation so that as changes arise, they can easily modify their project specific data.
- Specific Agency reporting requirements can be created

Project name  
Herman Miller GSA Demo

Project size (sq ft)  
5000

Zip / Postal Code  
33004

Products

Mirra 2  
Quantity: 20  
Price: 425

Embody  
Quantity: 10  
Price: 800

Ethospace  
Quantity: 30  
Price: 3600

Rating Systems

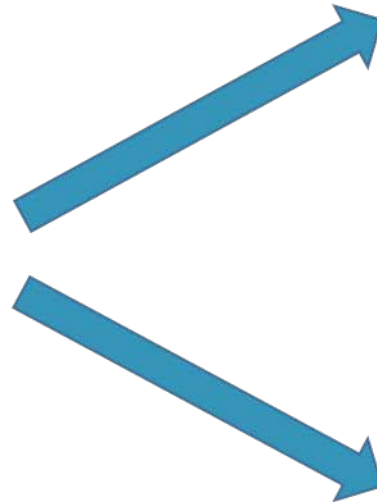

Federal Guidelines: remove

LEED CI v4: ignore

WELL 1.0 New and Existing Interiors: remove

Simple Project Setup

**Herman Miller GSA Demo**

Location: 33004  
Size: 5000

Project Overview

|                         |              |
|-------------------------|--------------|
| Total Cost              | \$119,500.00 |
| Herman Miller Mirra 2   | \$4,500.00   |
| Herman Miller Embody    | \$8,000.00   |
| Herman Miller Ethospace | \$105,000.00 |

Federal Guidelines

LEED CI v4

Materials and Resources: Building product disclosure and optimization - environmental product declarations (MR c3) All products contribute

Materials and Resources: Building product disclosure and optimization - sourcing of raw materials (MR c4) \$29,750.00

Materials and Resources: Building product disclosure and optimization - material ingredients (MR c5) All products contribute

Indoor Environmental Quality: Low emitting materials (EQ c2) \$119,500.00

WELL 1.0 New and Existing Interiors

Air: VOC Reduction (WELL D4) All products contribute

Project documentation

**Herman Miller Mirra 2**

Category: Furniture  
Subcategory: Seating  
BIFMA level: 3

The original Mirra evolved from Studio 7.5's vision of a chair that could react to what people do. A chair that could be simple, good looking, versatile, highly ergonomic, and environmentally responsible. A chair that could do more for people while requiring less of them. Now, a decade later, Studio 7.5 has rethought that concept to bring us Mirra 2. Finding the ideal of a highly individualized personal chair isn't valid, they subtracted material from and added more performance to virtually every aspect of the chair. Mirra 2 moves as you do, sit with your body. When you sit, Mirra 2 adapts to you naturally. Shift and it dynamically supports even your slightest movements. By rethinking every part of a successful design, we made Mirra 2 leaner, lighter, and to responsive it supports you wherever you go. Mirra 2 advances how you sit.
