

Faster, Smarter, Better Projects:
From Concept to Completion with the
FEMP Technical Assistance Portal

Empowering agencies to the get the work done!

- Web based portal for Federal agencies to request technical assistance with renewable energy projects.
 - Links to the RE Catalog of Services
 - Currently developing SOW templates that support each Service in the catalog.
 - Provides a one-stop shop for users.
 - Allows FEMP to track and review requests.
- A one-time registration gives the user access to the Portal, and allows them to submit and track requests.
- Next phase will incorporate financing and fleet management technical assistance requests.
- <https://www4.eere.energy.gov/femp/assistance/>

The FEMP Portal provides access to services:

- Plan and implement projects:
 - Catalog of Services provides a chronological list of steps you can use to plan and implement a renewable energy project.
- Acquire technical resources:
 - Guide to developing a quality SOW provides Procurement Support.
- Order technical assistance:
 - Web based tool allows you to apply for, and actively monitor your request for technical assistance.

- Catalog of Services
 - Renewable Energy available NOW!
 - Fleet Management before the end of the calendar year.
 - Financing Services (ESPC, PPA, UESC, ENABLE) and Sustainability in development with a planned release of 2nd quarter FY15.
- Consolidates the services into one location, in a downloadable document
- Describes the services available
 - When you should request the service.
 - A description of the service.
 - Training available which complements the service.
 - How to order.
 - Related follow-on services.

- Statements of Work
 - One more tool for your toolbox!
 - Statements of work for the RE Catalog of Services
 - Developed by experienced RE project developers, for FEMP.
 - A guide to creating the correct requirements for your project.
 - Suited to any skill set, from facility manager to contracting officer.
 - Get the most for your dollar, whether you use an existing maintenance contract, or a brand new RFP off of the GSA Schedule.
 - Sustainability Improvement Scopes of Work are next.
 - GSA has published several SOWs from successful projects.
 - FEMP plans to use those as the foundation to build boilerplate statements of work for the Sustainability Catalog of Services

- Applications for Assistance
 - What can I do now?
 - Go to the website: <https://www4.eere.energy.gov/femp/assistance/>
 - Register
 - Take a look at the User Guide. It's step-by-step, better than any instruction manual you'll use over the holidays.
 - Review the RE Catalog of Services
 - You can download the whole document from our site.
 - Create and Save, or Submit an application.
 - You're not committed to anything, but we would appreciate the feedback.
 - Get the word out in your agency.

- Interagency Agreements and the GSA Schedule
- IAs
 - FEMP and NREL have some unique capabilities
 - Renewable Energy Opportunity Assessments
 - Unparalleled expertise in the field of renewable energy
 - FEMP can help you and your Agency set up an interagency agreement in order to get work done!
- GSA Schedule
 - Do you know about 03 FAC? GSA Facilities Maintenance and Management.
 - Energy Management, Water Conservation, and Support Services
 - 11 Categories that will help you overcome your energy challenges.
 - Contractors are vetted, and have experience working with the Federal government.
 - Expedite your solicitation.
