New On-Demand FEMP Training

Energy Management Best Practices: Project Planning, Team Building, and Tracking

Begin

U.S. DEPARTMENT OF
ENERGY

Federal Energy
Management Program

FEMP

Upon completion of this training, attendees will be able to:

- **Recognize stakeholder drivers** to gain support for energy projects;
- Identify how to discover and **utilize untapped resources**;
- Recognize how to expand their network and **build a core team** for projects;
- Identify how to **utilize data** in project planning and communicating success; and
- **Develop an action plan** to improve their energy management efforts through collaboration, planning, and communication.
