CEQ Panel Discussion with Chief Sustainability Officers

The Office of Federal Sustainability at the Council on Environmental Quality discusses energy management with DoD, DOE and GSA agency Chief Sustainability Officers as it relates to Executive Order 13834 “Efficient Federal Operations”.

Success Stories of the 50001 Energy Management System

Join this ‘talking heads’ conversation from leading federal, state and private sector energy managers who are using ISO 50001 to improve operations, drive energy savings and enhance their missions. This conversation will include a brief introduction of the ISO 50001 Energy Management System and insights from top management and operations personnel on how they are achieving lasting and continuous energy performance improvements, with minimal costs, through site-wide adoption of the 50001 culture. Finally hear what free resources are available from US DOE to support your ISO 50001 training and implementation.
